

## Creating a Topic Alert in Nursing Reference Center Plus

When viewing a topic in *Nursing Reference Center Plus*, you can create an alert to be notified via e-mail when the content of the page is updated.

### To create a topic alert:

1. From the detailed record or HTML full text view, click the **E-mail Alert** link in the Tools menu on the right.

The screenshot shows a web interface for creating an alert. At the top, there are navigation links: '< Result List | Refine Search >' and '< 1 of 3,390 >'. Below this is a 'Create Alert' dialog box with a bell icon and a question mark. The text inside the dialog says 'Email me when this topic has been updated.' There are two input fields: 'Your E-mail: \*' with the text 'name@address.net' and 'How often: \*' with a dropdown menu set to 'Once a day'. There are two buttons: 'Create Alert' (yellow) and 'Cancel' (gray). Below the dialog, the title and database information are displayed: 'Title: Heart Failure and Kidney Disease By: Schub T, Cabrera G, Pravikoff D, CINAHL Nursing Guide, August 3, 2012' and 'Database: Nursing Reference Center Plus'. On the right side, there is a 'Tools' menu with a red box around the 'E-mail Alert' option. Other options in the menu include 'Add to folder', 'Print', 'E-mail', 'Save', 'Cite', 'Export', and 'Create Note'.

2. Enter your email address and select how often you would like to receive alerts from the drop-down menu.
3. Click the **Create Alert** button.
