
Annual Report 2016

General Department of Research & Studies

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

HRH King Salman bin Abdulaziz Al Saud
Custodian of the Two Holy Mosques

HRH Prince Mohammad bin Salman Al Saud
Deputy crown Prince second Deputy Prime Minister

The Minister Message

Dr. Tawfiq **Al-Rabiah**

Scientific research is an important tool to improve human life. Investment in health research has positive impact in five areas; advancing knowledge, building capacity, informing decision making, improving health , health system outcomes and contributing to the economy.

Saudi Arabia is trying to increase the level of research cooperation over all institutions belonged to either governmental or non-governmental sector, and assign it as a long-term aim due to the necessity to consider public expectations and public engagement. Yet, collaboration between them through data, best practice and resource sharing is uncommon.

This is of particular importance because of the increasing recognition that inter-institutional and inter-disciplinary research collaboration is essential to fully address complex health and healthcare issues.

The General Directorate of Research and studies (GDRS) undertook the responsibility to deal with the former fragmented and poorly coordinated MOH research system. Consequently, it adopted a national strategy and implementation roadmap to upgrade research infrastructure redesign the health research landscape across MOH and develop a research support framework.

It announced launching a regional research departments operational plan, defined a package of relevant initiatives and identified & implemented a set of projects.

GDRS accomplished the following programs :

- *Covering health affairs directorates all over the Kingdom with Institutional Review Boards (IRBs).*
- *Arranging to put e-Review technique into action.*
- *Organizing reporting and adopting structural interaction approaches in terms of formalized networks and platforms.*
- *Unifying their organizational structure.*
- *Standard operational Procedures (SOPs) & formats.*
- *Ddefining missions & responsibilities.*

Lastly, I would like to acknowledge the contribution of IRB committees representatives all over MOH for their devoted efforts to develop the quarterly and annual research reports.

REVIEW BOARD

MOH (HEAD QUARTER)

.PH. Athari F. Alotaibi

*Director General, General directorate for Research & Studies
Vice president of Central Ethics Committee*

.DR. Hisham M. Aziz

Consultant and central IRB-MOH Chairman

.Maha M Alosaimi

Head of information and Publication Department at MOH

.Haifa Abdullah Alshahrani

Project Manager at central ethics committee and GDRS at MOH

ORGANIZATIONAL STRUCTURE

OF THE GENERAL ADMINISTRATION OF RESEARCH & STUDIES

WHO ARE WE

The General Directorate for Research and Studies (GDRS MOH) is a specialized unit that directly **responsible** for the management of technical, administrative and financial activities of MOH research projects.

The unit is **linked** with the assistant undersecretary for **planning** and **research**.

GDRS acts in collaboration with the scientific committee, ethical committees and Committee for the **Adoption** of Research Priorities within the MOH.

The GDRS promotes equitable and sustainable health developments across the Kingdom.

Following the standard scientific and ethical principles :

OUR VALUES

LEADERSHIP

GDRS as a representative of MOH understands, accepts and supports the health research and fosters values consistent with the aforesaid mission in the KSA.

TEAMWORK

GDRS cooperates with other national and international health research bodies and is committed to the overall national health research objectives and agendas.

COLLABORATION

GDRS cooperates with other health community partners and stakeholders for different health problem issues.

ACCOUNTABILITY

GDRS is responsible for the achievements and successes of health research to develop health care services.

EXCELLENCE

We are committed to achieving the highest level of excellence in conducting basic and applied health researches.

INTEGRITY

GDRS guidelines demonstrate honest scientific and ethical framework coupled with a high moral standard widely trusted and culturally respected.

RESPECT

We foster an environment of mutual respect and trust amongst ourselves and with all whom we serve.

A comprehensive management of health research at the **MOH** to carry out **high standard** research projects consistent with the MOH research priorities that **lead** to the development of clinical practice and bridging the **knowledge gap**.

MISSION

VISION

To be a leader in the field of health research & studies, aiming to the excellence in cognitive contribution for the Ministry of Health nationally, regionally & globally.

Production of MOH IRB committees

Research Projects

Number of Research Projects taken IRB Approval from MOH IRB committees 2016

IRB COMMITTEES

IN RIYADH REGIONS

KING FAHAD MEDICAL CITY (KFMC)

IRB at KFMC was established in 2007
It approves epidemiological, scientific,
and clinical protocols for KFMC, MOH
hospitals, and universities
(inside & outside the Kingdom).

It also follows up, audits, & monitors the
performance of the research. It approves
manuscripts before
submission to journals.

The total number of projects processed
since 01.01.2018 is 986.

Breastfeeding self-efficacy among pregnant
 women in Saudi Arabia

KING SAUD MEDICAL CITY (KSMC)

The committee was officially formed
February 2015 & recognized by
Ministry of Health April 2016.

With IRB registration at KACST
(H-01-R-053) issued on May 2015.

The IRB as an independent committee
has the authority to evaluate the
scientific aspects of clinical research
proposals, involving human subjects that
caters both the KSMC & non-KSMC
researchers in local & international.

Researcher : Muneer AlMutairi
 Search Number : 1501
 Approved on : 27/7/2016
 Search Title :

Prevalence of Irritable Bowel Syndrome and its Associated Factors Among Medical Students

Researcher : Dr. Nassar AlNassar
 Search Number : 1507
 Approved on : 10/8/2016
 Search Title :

Factors affecting diabetic patient's treatment Satisfaction in Qaseem Region

Researcher : Dr. Gada Farouk Khaki
 Search Number : 1524
 Approved on : 22/8/2016
 Search Title :

Development of Breast Abnormality Detection System with colors Based on the Wavelet Decomposition Technique

Researcher : Dr. Abdurahman AlMuhaimeed
 Search Number : 1546
 Approved on : 4/9/2016
 Search Title :

Factors associated with anxiety and depression among type 2 diabetes outpatients in Saudi Arabia: a descriptive cross-sectional single-centre study

Researcher : Abdullah Al-Ghunaim
 Search Number : 1547
 Approved on : 5/9/2016
 Search Title :

Awareness of osteoporosis among Saudi population in Saudi Arabia epically Qassim region

IRB COMMITTEES
IN EASTERN REGION

KING FAHAD SPECIALIST HOSPITAL (DAMMAM)

The IRB is a committee of scientists, non-scientists, community representatives & health care professionals. It reviews research studies in an effort to protect the rights, safety and well-being of research participants and ensure the integrity & confidentiality of their information. In addition to documenting information needed by patients or healthy volunteers to enable them to make informed decisions on whether to participate in a research or not.

IRB at KFSH in Dammam is registered locally by the Saudi National Commission for Bioethics (NCBE) with the number H-05-D-002 & dated 04/06/1432 AH.

It operates according to NCBE regulations, Good Clinical Practice Guideline (GCP) and the Association for accreditation of Human Research Protection Programs (AAHRPPInc®) standards, which has granted the hospital accreditation in 2014 and renewed it in 2017.
