

How to remove PPE (AFTER)

HOW TO REMOVE PERSONAL PROTECTIVE EQUIPMENT

AFTER LEAVING PATIENT'S ROOM

1

TAKE OFF N95 MASK

- Lift the bottom elastic over your head first.

- Then, lift off the top elastic.
- Lift away from face while holding the elastic.

Discard in garbage.

2

CLEAN YOUR HANDS

- Immediately after taking off Personal Protective Equipment.
- Any time you think your hands have become contaminated.

- Avoid using patient's sink.
