

UpToDate® Anywhere

Introducing UpToDate® Anywhere

Clinical answers at the point of care with
mobile and remote access to UpToDate!

UpToDate includes more than 10,500 topics covering over 22 specialties; a drug information and a drug interaction tool (in partnership with Lexicomp®); nearly 1,500 patient leaflets; 28,000 graphics; and is fully referenced with more than 400,000 references. With the Ministry of Health Saudi Arabia access to UpToDate Anywhere, you receive:

- Free UpToDate Mobile App for Apple, android and Windows devices. Chosen as one of "The Best Apps in Publishing" by EContent Magazine.
- Easy access to UpToDate by logging in from any computer with an Internet connection.
- Free CME - UpToDate is accredited by the Saudi Commission for Health Specialties, and you can earn up to 10 credit hours per year when you research topics within UpToDate.

GETTING STARTED

Please go to <http://moh.gov.sa> and click on UpToDate under the 'Awareness' tab. If you have an MoH username and password then please login in to access the UpToDate page. You must be working within Saudi Arabia to benefit from this access.

MoH Staff - You can create your MoH account at <http://empupdate.moh.gov.sa>

Non-MoH Staff - Select 'create an account' for non Ministry staff and wait for your confirmation email

Once you have arrived in UpToDate - You will see a short registration page. This page must be completed to get your own unique UTD identity in order to earn CME and using the mobile app. This is a one time only registration process, but you will be asked to re-validate your account every 90 days.
