National Immunization Schedule

Region/City:  
Health Directorate/Cluster:  

Name:  
Date of Birth:  
Family/Medical File No.:  
ID:  
HESN Client ID:  

Mobile:  

Health Center/Hospital:  

Date and Signature:  

Timing/Indication:  

Influenza  

MMR  

Varicella  

HPV  

PCV  

PPSV23  

Meningococcal Conjugate  

Tdap or Td  

Programa  

Reporting  

1. 1 dose annually  
2. 1 dose Td/Pn before every 10 years.  
3. Pregnant women (for each pregnancy between 27 & 36 Weeks).  
4. For unvaccinated individuals, immunocompromised conditions and adults aged 65 years or older.  
5. For unvaccinated individuals, prior disease (1 or 2 doses depend on indication).  
6. 2 doses 4-6 months apart for adults aged 60 years or older.  
7. 2 doses 2-6 months apart for adult age 50 years or older.  
8. 1 dose adults aged 65 years or older (1 year after PCV 13 dose) from the first dose.  
9. 1 dose adults with immunocompromised conditions and adults aged 46 years or older.  
10. 1 dose (3, 1, and 6) if no previous immunization or no evidence of immunity.  
11. 1 dose depending on indication, then booster every 5 years if risk remains.  
12. 1 dose Td/Pn then Td booster every 10 years.
