

## FAQs for Add Dependents Service

### Not all children's data were retrieved?

Children are retrieved based on the data recorded in the family tree.

### How can I add/register dependents if their data is not retrieved directly?

You can enter the data (ID number and date of birth) manually, and it is verified through the link with Yakeen.

### Is it possible to add children over 18 years old?

Yes, by sending them a request for approval
