

## FAQs for Healthcare Licensing Service

### **What is the expected time to obtain the final license for the facility?**

Time for issuing the license varies according to activity, as hospitals are issued within 15 working days from the date of application, while the rest of healthcare institutions do not exceed 3 working days from the date of application, knowing that some facilities have their licenses issued immediately.

### **I did not get the commercial register or the municipality license, can I apply for an initial approval?**

The initial approval for licenses of private healthcare institutions shall not be issued except after issuance of a commercial register corresponding to the activity to be licensed and a municipal license confirming the activity requirements.

### **An application for issuing a final license has been submitted after completing all requirements, and the license has not yet been issued?**

If the activity is not within activities with immediate licenses, the final license shall not be issued unless the inspection committee visits the facility and approves it.

## What are the activities covered by immediate licenses?

Immediate licenses are granted to the following healthcare institutions, provided that health equipment and cadres are completed, and inspection of these institutions shall be after issuance of the final license:

1. Medical rehabilitation centers.
2. Physiotherapy centers.
